Ninety Eight Scholarship

About Ninety Eight

Ninety Eight is an ecosystem of innovation companies with a shared mission to enable and empower human potential. At the heart of Ninety Eight, we are builders backing builders. With building experience, solid resources, and strong roots, especially in Asia, we found and fund blockchain companies that make Web3 accessible for everyone.

Vision

Our vision is to position our Vietnam-based blockchain company as a global leader, setting the benchmark for innovations in blockchain technology. We aim to showcase Vietnam's potential as a hub for blockchain development, fostering collaboration and driving economic growth.

Mission

By creating a global financial ecosystem that is built on the principles of decentralization, security, and trust, we strive to redefine traditional business models and eliminate intermediaries, enabling individuals to engage directly in the management, investment, and transfer of their digital assets.

Ninety Eight Scholarship Program

We believe that education is the key to unlock the potential of tomorrow's leaders, and we are committed to supporting talented individuals in achieving a better future. Our scholarship program aims to provide financial assistance to deserving students who demonstrate exceptional academic achievements, leadership qualities, and a passion for making a positive impact on their communities.

With support from the University Committee, students will get an opportunity to discover their potential, think outside the box, and embark on an extraordinary journey with the Ninety Eight Scholarship Program. Together, we will create a brighter future through education, and forge a path towards excellence, innovation, and meaningful contributions that will shape the world for generations to come.
